

National Society Daughters of Colonial Wars

Ancestor Listing

This file contains a listing of the Ancestors and the corresponding applicant number of the individual that joined under the service of that ancestor. It is our intent to add other data such as birth and death dates, colony and spouse to this list in the future.

The smaller the number, the older the application and it is suggested that new applicants identify an application with the highest number for the specific ancestor as those applications are usually the most complete and most easily used to prove ancestry.

This file is searchable as it is an Adobe Acrobat File (pdf)

[Click here to open the ancestor Listing](#)

CTRL F will open a searchable field at top of the page, enter the name to search and enter. It is suggested that you search first on only the last name to obtain all ancestors and then by first name to limit your search if necessary. If you find no matches, try different spelling of last name and even the first few characters of the last name to see if you can identify your ancestor.

Good Hunting to everyone!

This file may take some time to load on subsequent searches

but they will load, please be patient

Applicants: Once you find an ancestor that you are or may be descended from, complete the Request for Information form for further assistance.
